HOW THE WORLD REALLY WORKS

ROTHSCHILD BANKING DYNASTY

"The power and wealth of the House of Rothschild grew to such proportions that by 1900 it was estimated that they controlled half the wealth of the world."

Des Griffin in his book "Descent Into Slavery?"

"Rothschild-controlled Barings Bank bankrolled the Chinese opium and African slave trades. It financed the Louisiana Purchase. The House of Rothschild financed the Prussian War, the Crimean War and the British attempt to seize the Suez Canal from the French. Nathan Rothschild made a huge financial bet on Napoleon at the Battle of Waterloo, while also funding the Duke of Wellington's peninsular campaign against Napoleon. Both the Mexican War and the Civil War were gold mines for the family.
... The Rothschilds have a majority stake in nearly all the central banks in the world."

Dean Henderson in his book "Big Oil & Their Bankers in the Persian Gulf"

"The name "Rothschild" cannot be found in the publication's list of the 500 wealthiest people on Earth because the family's wealth has been distributed amongst hundreds of heirs throughout the years. Although it is difficult to estimate exactly how much this powerful family is worth due to their renowned secrecy and the scale of their operations, the net worth has been estimated at anywhere between $US1 trillion and $US100 trillion."

www.australiannationalreview.com, 2014

"The Rothschild cabal have infiltrated your government, your media, your banking institutions. They are no longer content with committing atrocities in the Middle East, they are now doing it on their own soil (Europe), desperate to complete the plan for a one world government, world army, complete with a world central bank."

Russian President Vadimir Putin - to a Kremlin tour group, 2017

"The combined wealth of the Rothschilds in 1998 was appriximately $100 trillion."

Gaylon Ross Sr. author of "Who's Who of the Global Elite"

GLOBAL FINANCIAL OLIGARCHY

"There is a shadowy group of Plutocrats running multinational corporations, controlling the media narrative, manipulating the money supply, influencing governments, generating chaos, and provoking wars in order to further their agendas.
These people are very real and extremely dangerous. They operate in the shadows, safely out of the light of public scrutiny.
They manage by proxy, using cut-outs to do their bidding, never allowing themselves to get their hands dirty.
Politicians are used and discarded, giving the illusion that they are the ones in control. The controllers' identities are hidden through a corporate shell game of holding companies and secret banking tax havens, in places like the Cayman Islands and Luxemburg.
A thirst for publicity and a lust for the spotlight are liabilities if you want to excel in this endeavor. Better to rule from the shadows where your identity and intentions are unknown.
... The people running the show are mostly driven, professional, sociopaths with no discernible traces of compassion.
... Some of our best-known leaders and public figures are actually psychopaths, and what makes a psychopath most effective

is their overall lack of empathy. They simply do not have the ability to imagine or feel someone else's pain, and this frees them up to cross boundaries that the rest of us would never dream of crossing. They can operate without limits, giving them an advantage over everyone else. They are professional liars and damn proud of it.
... You do not make it to the top of the food chain by being nice, honest and fair; you get there by force, deception, and influence. You get there through violence, if necessary. You get there through blackmail and extortion. It takes planning and funding, patience and practice, and a mastery of how to use fear to control other people. Those running the world are playing a much different game than the rest of us, and the way they see it, there are no rules. Or at least the rules do not apply to them. ... Their plan is to change society in every country in a way that provides them a reason to impose a world government. The creation of a world central bank and an electronic world currency, in conjunction with the elimination of cash, would allow them complete control to dictate financial policy around the globe. Their policies would be enforced by their world army, and a micro-chipped population would live in fear of having their electronic currency deleted if they ever crossed the world government."

Charlie Robinson, in his book "The Octopus of Global Control", 2017

"Powerful private families decide who controls the Federal Reserve, the Bank of England, the Bank of Japan and even the European Central Bank. Money is in their hands to destroy or create. Their aim is the ultimate control over future life on this planet, a supremacy earlier dictators and despots only ever dreamt of."

F. William Engdahl

"During the past two centuries when the peoples of the world were gradually winning their political freedom from the dynastic monarchies, the major banking families of Europe and America were actually reversing the trend by setting up new dynasties of political control through the formation of international financial combines. These banking dynasties had learned that all governments must have sources of revenue from which to borrow in times of emergency. They had also learned that by providing such funds from their own private resources, they could make both kings and democratic leaders tremendously subservient to their will."

Carroll Quigley in his book "Tragedy and Hope"

GLOBAL POWER ELITE

"The plan for an overhaul of the world is the brainchild of an elite group of businessmen, politicians, and their intellectual entourage that meet in Davos, Switzerland, in January each year. Brought into existence in 1971, the World Economic Forum (WEF) has become a megaglobal event since then. More than three thousand leaders from all over the world attended the meeting in 2020.

Under the guidance of the WEF, the agenda of the Great Reset says that the completion of the current industrial transformation requires a thorough overhaul of the economy, politics, and society

... The consensus has emerged at the annual Davos meetings that the world needs a revolution, and that reforms have taken too long. The members of the WEF envision a profound upheaval at short notice. The time span should be so brief that most people will hardly realize that a revolution is going on. The change must be so swift and dramatic that those who recognize that a revolution is happening do not have the time to mobilize against it.

... Projects like the Great Reset leave unanswered the question of who rules the state. The state itself does not rule. It is an instrument of power. It is not the abstract state that decides, but the leaders of specific political parties and of certain social groups.

Earlier totalitarian regimes needed mass executions and concentration camps to maintain their power. Now, with the help of new technologies, it is believed, dissenters can easily be identified and marginalized. The nonconformists will be silenced by disqualifying divergent opinions as morally despicable.

... The 2020 lockdown worked as if it had been orchestrated - and perhaps it was. As if following a single command, the leaders of big and small nations - and of different stages of economic development - implemented almost identical measures. Not only did many governments act in unison, they also applied these measures with little regard for the horrific consequences of a global lockdown.

Months of economic stillstand have destroyed the economic basis of millions of families. Together with social distancing, the lockdown has produced a mass of people unable to care for themselves. First, governments destroyed the livelihood, then the politicians showed up as the savior.

... The lockdown and its consequences have brought a foretaste what is to come: a permanent state of fear, strict behavioral control, massive loss of jobs, and growing dependence on the state."

Anthony Mueller, 2020

"The global elite who meet every year at Davos, Switzerland have little need for national loyalty. They view national boundries as obstacles, that are vanishing, and they see national governments as residues from the past, whose only useful function is to facilitate the elites global operations."

Samuel Huntington

"The World Economic Forum's (WEF) agenda matches goals set out by the United Nations Agenda 2030.
In the future, the less-developed world will not rise to the developed, rather the other way, as advanced civilizations must go down to their living standards to become 'sustainable'."

TOTT News, 2020

"The lockdown in the wake of the coronavirus pandemic has accelerated the implementation of long-held plans to establish a so-called new world order. Under the auspices of the World Economic Forum (WEF), global policymakers are advocating for a "Great Reset" with the intent of creating a global technocracy.
... This coming technocracy involves close cooperation between the heads of the digital industry and of governments. With programs such as guaranteed minimum income and healthcare for all, the new kind of governance combines strict societal control with the promise of comprehensive social justice.
The truth, however, is that this new world order of digital tyranny comes with a comprehensive social credit system."

Anthony Mueller, 2020

<u>GLOBAL MONEY CENTERS</u>
City of London / Wall Street

"London's inner city is a privately owned corporation or city state, located right in the middle of greater London. Today, the City State of London is the world's financial power centre & the wealthiest square mile on the face of the Earth. It houses the Rothschild controlled Bank of England, Lloyds of London, the London stock exchange, all British banks, the branch offices of 385 foreign banks & 70 US banks. It has its own courts, its own laws, its own flag & its own police force. It is not part of greater London, or England, or the British Commonwealth, & pays no taxes. It is the headquarters for the world wide money cartel known as The Crown."

The Hidden Empire, http://lightworkersxm.wordpress.com/, August 4, 2012

"Wall Street financed the German cartels in the mid-1920s which in turn proceeded to bring Hitler to power.
The financing for Hitler and his S.S. street thugs came in part from affiliates or subsidiaries of U.S. firms, including Henry Ford in 1922, payments by I. G. Farben and General Electric in 1933, followed by the Standard Oil of New Jersey and I.T.T. subsidiary payments to Heinrich Himmler up to 1944.
U.S. multi-nationals under the control of Wall Street profited handsomely from Hitler's military construction program in the 1930s and at least until 1942.
International bankers used political influence in the U. S. to cover up their wartime collaboration."

Antony C. Sutton in his book "Wall Street and the Rise of Hitler"

"New York and London have become the world's two biggest laundries of criminal and drug money, and offshore tax havens. Not the Cayman Islands, not the Isle of Man or Jersey. The big laundering is right through the City of London and Wall Street."

Martin Woods, bank money laundering investigator, to the Observer newspaper in 2011

CENTRAL BANKS
Bank of England / Bank of International Settlements (BIS) / Federal Reserve

"The powers of financial capitalism had a far-reaching aim - nothing less than to create a world system of financial control in private hands able to dominate the political system of each country and the economy of the world as a whole. This system was to be controlled in a feudalist fashion by the central banks of the world acting in concert, by secret agreements arrived at in frequent private meetings and conferences. The apex of the system was to be the Bank for International Settlements [BIS] in Basel, Switzerland, a private bank owned and controlled by the world's central banks which were themselves private corporations ... Each central bank sought to dominate its government by its ability to control Treasury loans, to manipulate foreign exchanges, to influence the level of economic activity in the country, and to influence cooperative politicians by subsequent economic rewards in the business world."

Carroll Quigley in his book "Tragedy and Hope"

"Most nations do not have control over their own currencies. Instead privately owned, for-profit central banks - such as the Federal Reserve System in the US - create money out of nothing and then loan it at interest to their respective governments. Not only do the central banks have the power to create money for free, they also have the power to set interest rates, to decide how much credit is issued, and to decide how much money is put into circulation.
With this power, central banks can - and do - orchestrate boom and bust cycles, enabling the super-wealthy owners of the banks to profit from investments during the booms, and buy up assets at bargain prices during the busts.
... The most profitable of all central bank activities has been the financing of major wars, particularly the two World Wars. When nations are engaged in warfare, with their very survival at stake, the governments stretch their resources to the limit in the competition to prevail. The struggle to get more financing becomes as important as the competition on the battlefield. Moneylenders love a desperate borrower, and vast fortunes have been made by extending credit to both sides in conflicts: the longer a war continues, the more profit for the central bankers."

www.theglobalelite.org, 2013

"The private issuance of a nation's money has given tremendous power to central bankers, a power so great that even democratically elected governments are subservient to them. Governments are not in control of the economy; it is the all-powerful central bankers who create the money, determine interest rates, and decide who gets loans and who doesn't."

Gabriel Donohoe

SUPRANATIONAL CORPORATIONS

"There are more than 60,000 transnational corporations in the world. More than fifty of the largest one-hundred economies in the world are corporations. Transnational corporations hold ninety percent of all technology and product patents worldwide. Transnational corporations are involved in 70 percent of world trade.
The top 737 of these super-corporations or "super-entities" control 80% of the world economy.
The top 147 super-corporations or "super-entities" control 40% of the global economy through direct and indirect ownership or controlling interest.
Hundreds of companies own the stocks and bonds of each other - they collectively own themselves. Hence, it becomes nearly impossible to trace the roots of ownership and control. From their relative obscurity, they wield enormous control of national and global economies."

from a 2011 Swiss Federal Institute of Technology study of multinational corporations

"The global corporatocracy is almost fully operational. The intentions of those negotiating the multiple trade treaties are now crystal clear: to place complete power and control over our economies in the hands of the largest global corporations, ... The main driver of this change are the bilateral and multilateral trade and investment treaties being negotiated in complete secrecy and behind closed doors between corporate lobbyists, free trade activists and our elected representatives. The ultimate goal of these treaties is to reconfigure the legal apparatus and superstructures that govern national, regional and global trade and business - for the primary, if not exclusive, benefit of the world's largest multinational corporations."

Don Quijones

"The transnational corporations carry on inexorably. Increasingly flagless and stateless, they weave global webs of production, commerce, culture and finance virtually unopposed. They expand, invest and grow, concentrating ever more wealth in a limited number of hands. They work in coalition to influence local, national and international institutions and laws. And together with the governments of their home countries in Europe, North America and Japan, as well as international institutions such as the World Trade Organization, the World Bank, the International Monetary Fund and increasingly, the

United Nations, they are molding an international system in which they can trade and invest even more freely--a world where they are less and less accountable to the cultures, communities and nation-states in which they operate. Underpinning this effort is not the historical inevitability of an evolving, enlightened civilization, but rather the unavoidable reality of the overriding corporate purpose: the maximization of profits."

Sierra Club

GLOBAL FINANCIAL AND DYNASTIC BANKING INSTITUTIONS

"The modern banking system manufactures money out of nothing. The process is perhaps the most astounding piece of sleight of hand that was ever invented. Banking was conceived in inequity and born in sin. Bankers own the earth. Take it away from them but leave them the power to create money, and, with a flick of a pen, they will create enough money to buy it back again. Take this great power away from them and all great fortunes like mine will disappear, for then this would be a better and happier world to live in. But, if you want to continue to be the slaves of bankers and pay the cost of your own slavery, then let bankers continue to create money and control credit."

Sir Josiah Stamp, president of the Bank of England in the 1920s, the second richest man in Britain, speaking at the Commencement Address of the University of Texas in 1927

"At the center of the international financial system are the banks, asset management firms, oligarchs and financial dynasties that together control the network - or cartel - of the Global Financial Mafia. A network of roughly 150 of the world's largest financial institutions collectively control each other and a significant percentage of the network of the world's largest 47,000 transnational corporations. This unprecedented global financial power concentrated in a relatively small list of banks, insurance companies and asset management firms is itself controlled by rich and powerful individuals and families: the core constituency of the world of Global Financial Governance.
As with every imperial system, a form of State Power is needed, as only nations have sovereign authority and accepted legitimacy."

Andrew Gavin Marshall

"Since America's inception there has been a lingering notion that European Illuminati bankers seek to bring America to its knees and return it to the fold of the Crown of England, which centuries ago became the key political vassal for the Eight Families who own majority stock in every private central bank in the world - Rothschild, Rockefeller, Kuhn Loeb, Lehman, Goldman Sachs, Warburg, Lazard, and Israel Moses Seif.
... The Eight Families own 52% of the New York Federal Reserve Bank, far and away the most powerful Fed Bank. Their ownership is disguised under names like JP Morgan Chase, Citigroup, Goldman Sachs and Morgan Stanley.
... Do I exaggerate when I claim that there are Eight Families? Well, yes, actually these oligarchs have interbred to the point that they are now, for all practical purposes, one big family, with the Rothschilds being the most powerful. Their net worth alone is estimated at well over $100 trillion."

Dean Henderson

<u>GLOBAL GOVERNMENT</u>
United Nations

"The five veto powers and permanent members of the Security Council have corrupted the UN Charter. And corrupted the work of the UN. Applying double-standards, and disregard for law - they have made the organisation primarily serve their best interests rather than serve its mandate.
The five most dangerous Member States together manufacture and sell some 85% of military arms, including nuclear weapons, and so called weapons of mass destruction. This is the UN of the arms dealers - the most disreputable and yet profitable business on earth.
And tragically and quite bizarrely, these arms dealers are the same Member States that the UN Charter entrusts with maintaining Peace and Security around the world! I trust you see the disconnect? The incompatibility? - the mind boggling reality of nuclear powers and weapons salesmen being responsible for peaceful co-existence?! It's madness!"

Denis Halliday, former UN Humanitarian Coordinator in Iraq, in Canada in 2009

"The United Nations is a dictatorship from which nothing good comes, because they find a million ways to prevent anything from happening.
... Within the Security Council, there are five countries that have veto power. But without a doubt, the most influential country in the United Nations is the United States. And it's really amazing that the most warmongering country in the history of mankind is put there in charge to make sure that there is peace.
... The United Nations Charter tells you how you can proceed to reform it. They say you have to call a general conference, and how you have to call it, and the approval that you have to have from the Security Council. But at the end, when all is said and done, when you have decided what reforms you want to make, they have a veto power over it. So it's a farce. It's a fraud.
... The United Nations is beyond reform. It's beyond patchwork. It's the most important organization in the world to help save the human species and Mother Earth, but it has to be reinvented."

former UN General Assembly President Miguel d'Escoto

"The UN's Agenda 21 proposes a global regime that will monitor, oversee, and strictly regulate our planet's oceans, lakes, streams, rivers, aquifers, sea beds, coastlands, wetlands, forests, jungles, grasslands, farmland, deserts, tundra, and mountains. It even has a whole section on regulating and "protecting" the atmosphere. It proposes plans for cities, towns, suburbs, villages, and rural areas. It envisions a global scheme for healthcare, education, nutrition, agriculture, labor, production, and consumption - in short, everything. There is nothing on, in, over, or under the Earth that doesn't fall within the purview of some part of Agenda 21."

William Jasper in a report entitled "Your Hometown & the United Nations' Agenda 21", February 10, 2012

<u>GLOBAL GOVERNANCE ORGANIZATIONS</u>
International Monetary Fund (IMF) / World Bank / World Trade Organization (WTO)

"The World Bank, the IMF, and the WTO consider the ideal country to be one in which all assets and resources are owned by foreign corporations producing for export to generate foreign exchange to repay international debts. Their favored country has no public services. Power, water, education, health care, social security, and financial services are all owned and operated by foreign corporations for profit on a fee for service basis. Food and other goods for domestic consumption are all imported from abroad and paid for with money borrowed from foreign banks."

David Korten

"The IMF and World Bank are the chief pushers of the whole scheme of structural adjustments that are designed to further open up the Third World economies for penetration and plunder by private monopoly corporations. We call for the abrogation of all loan agreements that provide for structural adjustment, public assumption of private debts and the further exposure of the Third World economies to plunder by private multinational giants."

Cebu Declaration - Philippine-Asia Jubilee Campaign Against the Debt, 1999

"The corporate-dominated economy and the transnational corporate state had consolidated its power over almost every aspect of public and private life, and under a formal globalization movement the transnational corporations were extending their tentacles all over the planet.
Working with the International Monetary Fund (IMF), the World Bank and the World Trade Organization (WTO), they ensured that the interests of capital were nowhere endangered by the needs of the world's poor to eat, have shelter, clothing, sanitation, medical care, and education."

William F. Pepper in his book "An Act of State: the Execution of Martin Luther King"

<u>GLOBAL POWER CENTERS</u>
Club of the Isles / Council on Foreign Relations / Chatham House / Bilderberg Group / Trilateral Commission

"The Bilderberg Group has been meeting secretly behind closed doors once or twice each year since its formation. Its purpose is to remove independence from all countries and permit the aristocracies to have tyrannical rule from behind the military might of the United Nations."

Daniel Estulin in his book "The Bilderberg Group"

"Club of the Isles is a European cartel - centered within the City of London and headed by the House of Windsor - which controls every aspect of the global economy -- banks, insurance and pharmaceutical companies, raw materials, transportation, factories, major retail groups, the stock and commodities markets, politicians and governments, media, intelligence agencies, drugs and organized crime."

Executive Intelligence Review, 1995

"The Chatham House (Royal Institute of International Affairs) and its leading personnel control not only the Far Eastern drug traffic but every important dirty money operation on the surface of he globe."

from the book "DOPE, INC., 1992

"In foreign affairs the Council on Foreign Relations contains within its shell, perhaps unknown to many of its members, a power center that unilaterally determines U.S. foreign policy. The major objective of this submerged and obviously subversive foreign policy is the acquisition of markets and economic power for a small group of giant multi-nationals under the virtual control of a few banking investment houses and controlling families."

Antony C. Sutton in his book "Wall Street and the Rise of Hitler"

GLOBAL MILITARY AUTHORITY
North Atlantic Treaty Organization (NATO)

"The North Atlantic Treaty Organization (NATO) and affilated and allied military blocs are expandng into and throughout Europe, the Mediterranean, the Caucasus, Central and South Asia, East Asia and the Pacific, Africa, the so-called Greater Middle East and beyond.
NATO is the first attempt in history to establish an aggressive global military formation, one which currently includes a third of the nations of the world either as members or partners. NATO has members and partners on five continents and has conducted active operations on four, with the potential to expand its reach into the remaining two where it has not yet officially intruded itself."

Rick Rozoff

"A close look at the map of Eurasia begins to suggest what is at stake for Washington in Eurasia. The goal is not only the strategic encirclement of Russia through a series of NATO bases... All of this has the overarching goal of enabling NATO to control energy routes and networks between Russia and the EU."

F. William Engdahl in his book "Full Spectrum Dominance"

"The wars in Yugoslavia throughout the 1990s served as a justification for the continued existence of NATO in the world, and to expand American imperial interests in Eastern Europe.
... The war [Yugoslavia-1990s] created a raison d'être for the continued existence of NATO in a post-Cold War world, as it desperately tried to justify its continued existence and desire for expansion."

Andrew Gavin Marshall, 2009

PERPETUAL WAR

"The Plan is for the United States to rule the world. The overt theme is unilateralism, but it is ultimately a story of domination. It calls for the United States to maintain its overwhelming superiority and prevent new rivals from rising up to challenge it on the world stage. It calls for dominion over friends and enemies alike. It says not that the United States must be more powerful, or most powerful, but that it must be absolutely powerful."

Vice-President Dick Cheney - West Point lecture, June 2002

"The goal of the wars is to enable the economy to be kept going for the benefit of the High, its military, and its bureaucracy and control personnel, but at the same time to assure that any excess production capacity is prevented from producing consumer goods for the lower classes. That excess capacity is instead directed to producing excess military goods which will ultimately rust away or be destroyed in warfare; that is, the excess capacity is deliberately wasted in order to turn it away from the production of goods which would result in added leisure or well-being for the lower classes. Those classes are instead continually forced into group activities expressing hatred toward the current enemy and dependency upon and love toward their benevolent rulers for protecting them from that enemy. They are thereby led to accept the consumer shortages, the poverty, and the other privations to which they are subjected. Their economic status is kept at the subsistence level, forcing their priorities to be focused on simply acquiring basic food, clothing, and shelter. They are thus denied either the time or the inclination to question the fairness or permanence of their societal condition, or to otherwise evolve into a threat to the established hierarchy."

George Orwell in his book "1984"

"Our government has kept us in a perpetual state of fear - kept us in a continuous stampede of patriotic fervor - with the cry of grave national emergency. Always there has been some terrible evil at home or some monstrous foreign power that was going to gobble us up if we did not blindly rally behind it by furnishing the exorbitant funds demanded. Yet, in retrospect, these disasters seem never to have happened, seem never to have been quite real."

General Douglas MacArthur, 1957

FALSE FLAG STATE TERROR

"In the 1960's, the American Joint Chiefs of Staff signed off on a plan [Operation Northwoods] to blow up American airplanes, and to commit terrorist acts on American soil, and then to blame it on the Cubans in order to justify an invasion of Cuba."

Global Research, 2010

"Dick Cheney, Paul Wolfowitz, Stephen Hadley, Elliott Abrams, and Condoleezza Rice ran the attacks on 9/11.
It was called a stand down, a false flag operation, in order to mobilize the American public under false pretenses... it was told to me by the general on the staff of Paul Wolfowitz.
I taught stand down and false flag operations at the national war college, so I knew exactly what was done to the American public."

Dr. Steve R. Pieczenik, Deputy Assistant Secretary of State under Nixon, Ford and Carter

"A former Italian Prime Minister, an Italian judge, and a former head of Italian counterintelligence admit that NATO, with the help of the Pentagon and CIA, carried out terror bombings in Italy and other European countries in the 1950s [Operation Gladio] and blamed the communists, in order to rally people's support for their governments in Europe in their fight against communism."

Washington's Blog, 2010

"When you are a patriot, you don't question the motivation of the CIA or the White House. You assume the bigger purpose is for a greater good. They pick good, loyal people like me.
... WTC 7 was a classic controlled demolition with explosives. We used super-fine military grade nanothermite composite materials as explosives. The hard part was getting thousands of pounds of explosives, fuses and ignition mechanisms into the building without causing too much concern. But almost every single office in the Building 7 was rented by the CIA, the Secret Service, or the military, which made it easier.
... When the building came down, it was such a rush. Everything went exactly to plan. It was so smooth. Everybody was evacuated. Nobody was hurt in WTC 7. We were celebrating. We kept watching replays of the demolition, we had the whiskey and cigars out, and then all of a sudden the strangest thing happened. We all started to worry that it looked a bit too smooth. We watched the tape again and again and again and we started to get paranoid. It looked like a controlled demolition. We thought shit, people are going to question this. And then we heard that people from the street were reporting that they heard the explosions during the afternoon. When we were told that the BBC botched their report and announced to the world that the building collapsed 20 minutes before it actually did At that point we really thought the gig was up.
... There were so many loose ends, so much evidence left behind. We thought the public would be all over it. We thought there would be a public uprising that the media couldn't ignore. They'd be funding investigations and demanding to know why they were being lied to. We thought they'd find chemical composites in the area that would prove Building 7 was blown up.
We thought there would be a revolution. It would go all the way to the top, to President Bush. He'd be dragged out of the White House.
But none of that happened. Almost nobody questioned anything. The media shot down anyone who dared question anything they were told.
... There could never be a real investigation of 9/11. The entire shadow government, as you call them now, are implicated.
... They will use the media to attack me. They are all on the payroll to suppress everything around 9/11."

retired CIA agent Malcom Howard, 2017
[worked for the CIA for 36 years as an operative]

ZIONISM

"A voluntary reconciliation with the Arabs is out of the question either now or in the future. If you wish to colonize a land in which people are already living, you must provide a garrison for the land, or find some rich man or benefactor who will provide a garrison on your behalf. Or else, give up your colonization, for without an armed force which will render physically impossible any attempt to destroy or prevent this colonization, colonization is impossible.
... Zionism is a colonization adventure and therefore it stands or falls by the question of armed force."

Vladimir Jabotinsky, founder of Revisionist Zionism (precursor of Likud Party}

"For the most part, Israel is the subcontractor for American arms to the 'Third World'. There is no terrible regime - Colombia, Guatemala, Uruguay, Argentina and Chile during the time of the colonels, Burma, Taiwan, Zaire, Liberia, Congo, Sierra Leone - there is not one that does not have a major military connection to Israel. Israel is a key member of the American empire."

Jeff Halper

"Tell me, do the evil men of this world have a bad time? They hunt and catch whatever they feel like eating. They don't suffer from indigestion and are not punished by Heaven. I want Israel to join that club. Maybe the world will then at last begin to fear us instead of feeling sorry. Maybe they will start to tremble, to fear our madness instead of admiring our nobility. Let them tremble; let them call us a mad state. Let them understand that we are a savage country, dangerous to our surroundings, not normal, that we might go wild, that we might start World War Three just like that, or that we might one day go crazy and burn all the oil fields in the Middle East. Even if you'll prove to me that the present war is a dirty immoral war, I don't care. We shall start another war, kill and destroy more and more. And do you know why it is all worth it? Because it seems that this war has made us more unpopular among the civilized world. We'll hear no more of that nonsense about the unique Jewish morality. No more talk about a unique people being a light upon the nations. No more uniqueness and no more sweetness and light. Good riddance."

former Israeli Prime Minister Ariel Sharon

WESTERN INTELLIGENCE AGENCIES

Britain's MI6 / Israel's Mossad / CIA

"Coming to grips with U.S./CIA activities in broad numbers and figuring out how many people have been killed in the jungles of Laos or the hills of Nicaragua is very difficult. But, adding them up as best we can, we come up with a figure of six million people killed-and this is a minimum figure. Included are: one million killed in the Korean War, two million killed in the Vietnam War, 800,000 killed in Indonesia, one million in Cambodia, 20,000 killed in Angola ... and 22,000 killed in Nicaragua. These people would not have died if U.S. tax dollars had not been spent by the CIA to inflame tensions, finance covert political and military activities and destabilize societies."

John Stockwell, CIA official in the 1960s and 1970s

"The government of Israel, through its secret spy agency, the Mossad, orchestrated the conspiracy that ended the life of John F. Kennedy.
Through its own vast resources and through its international contacts in the intelligence community and in organized crime, Israel had the means, it had the motive, and it had the opportunity to carry out the crime of the century [9/11] - and did."

Michael Collins Piper in his book "Final Judgment"

"Almost from the beginning, the CIA engaged not only in the collection of intelligence information, but also in covert operations which involved rigging elections and manipulating labor unions abroad, carrying on paramilitary operations, overturning governments, assassinating foreign officials, protecting former Nazis and lying to Congress."

former Senator George McGovern, 1987

"It is the function of the CIA to keep the world unstable, and to propagandize and teach the American people to hate, so we will let the Establishment spend any amount of money on arms."

John Stockwell, CIA official in the 1960s and 1970s

THE VATICAN

"The Catholic church is the biggest financial power, wealth accumulator and property owner in existence. She is a greater possessor of material riches than any other single institution, corporation, bank, giant trust, government or state of the whole globe.
... The Vatican has large investments with the Rothschilds of Britain, France and America.
... The Vatican has billions of shares in the most powerful international corporations.
... The Catholic church, once all her assets have been put together, is the most formidable stockbroker in the world.
... The Vatican's treasure of gold has been estimated to amount to several billion dollars. A large bulk of this is stored in gold ingots with the U.S. Federal Reserve Bank, while banks in England and Switzerland hold the rest... When to that is added all the real estate, property, stocks and shares abroad, then the staggering accumulation of the wealth of the Catholic church becomes so formidable as to defy any rational assessment."

from the book "The Vatican Billions" by Avro Manhattan, 1983

"Early in the 19th century the Pope came to the Rothschilds to borrow money... The Rothschilds over time were entrusted with the bulk of the Vatican's wealth. "
Fritz Springmaier in his book "Bloodlines of the illuminati"

"During a war you will never see the Vatican, City of London or Switzerland get attacked. On the grand chessboard these are considered neutral ground because it is where all the money flows. Without money to fund war, there is no war."

DRUG TRAFFICKING & MONEY LAUNDERING

"The Hong Kong and Shanghai Bank [HSBC] and related companies finance the opium trade. In this, they are acting as designated agents of the British monarchy, through the Royal Institute of International Affairs.
The world illegal drug traffic is controlled by a single group of men whose intimate ties of ownership, family, and political collaboration go back 200 years."

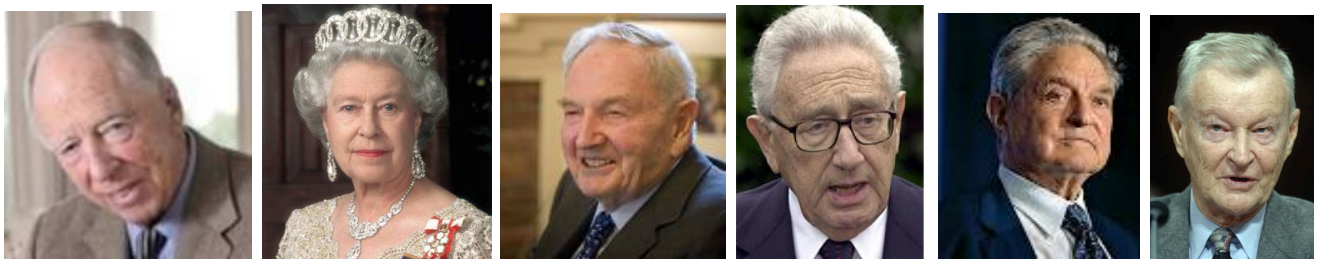

www.bibliotecapleyades.net "How the Drug Empire Works"

"The real reason that the drug problem is not eradicated is because it is being run by the highest families in the entire world as part of a coordinated gigantic money-making machine.
... The plutocracy controlling British banks held the purse strings and then, as now, put up a most respectable facade to cover their true business. No one ever caught them with dirtied hands. They always had front men, even as they do today, willing to take the blame if things went awry. Then as now the connections with the drug trade were tenuous at best. No one was ever able to lay a finger on the respectable and "noble" banking families of Britain."

John Coleman in his book "Conspirators' Hierarchy: The Story of the Committee of 300"

"Drug profits are secured through the ability of the drug cartels to launder and transfer billions of dollars through the US banking system. The scale and scope of the US banking-drug cartel alliance surpasses any other economic activity of the US private banking system."

James Petras

RULING ELITE AND THEIR AGENTS

Jacob Rothschild / Queen Elizabeth II / David Rockefeller / Henry Kissinger / George Soros / Zbigniew Brzezinski

"Real power is unelected. Politicians change, but the power structure does not. The Network (a global Anglophile financial elite power structure) operates behind the scenes, for its own benefit, without ever consulting those who are affected by its decisions.
The Network is composed of individuals who prefer anonymity. They are "satisfied to possess the reality rather than the appearance of power." This approach of secretly exercising power is common throughout history because it protects the conspirators from the consequences of their actions.
A primary tactic for directing public opinion and "government" policy is to place willing servants in leadership positions of trusted institutions (media, universities, government, foundations, etc.). If there is ever a major backlash against a given policy, the servant can be replaced. This leaves both the institution and the individuals who actually direct its power unharmed.
Historically, those who establish sophisticated systems of domination are not only highly intelligent; they are supremely deceptive and ruthless. They completely ignore the ethical barriers that govern a normal human being's behavior. They do not believe that the moral and legislative laws, which others are expected to abide by, apply to them."

Joseph Plummer in his book Tragedy and Hope 101

"At the center of oligarchy is the idea that certain families are born to rule as an arbitrary elite, while the vast majority of any given population is condemned to oppression, serfdom, or slavery. Oligarchs identify wealth purely in money terms, and practice usury, monetarism, and looting.
... The essence of oligarchism is summed up in the idea of the empire, in which an elite identifying itself as a master race rules over a degraded mass of slaves or other oppressed victims. If oligarchical methods are allowed to dominate human affairs, they always create a breakdown crisis of civilization, with economic depression, war, famine, plague, and pestilence. A pillar of the oligarchical system is the family fortune. The continuity of the family fortune which earns money through usury and looting is often more important than the biological continuity across generations of the family that owns the fortune."

"The Venetian Black Nobility and the Concept of Oligarchy" an article by Dr. Webster Griffin Tarpley & James Higham

"There is a transnational ruling class, a "Superclass", that agrees on establishing a world government. The middle class is targeted for elimination, because most of the world has no middle class, and to fully integrate and internationalize a middle class, would require industrialization and development in Africa, and certain places in Asia and Latin America. The goal of the Superclass is not to lose their wealth and power to a transnational middle class, but rather to extinguish the notion of a middle class, and transnationalize a lower, uneducated, labor oriented class, through which they will secure ultimate wealth and power."

Andrew Gavin Marshall, 'The Global Economic Crisis: The Great Depression of the XXI Century'

FOUNDATIONS & THINK TANKS

"Dynastic families establish 'philanthropic foundations' to serve a dual purpose of justifying their wealth and influence (by being perceived as 'giving back'), but which, in actuality, provide concentrations of wealth managed for the purpose of 'strategic giving': to undertake social engineering projects with an ultimate objective of maintaining social control. While appearing to be 'charitable' institutions, the major foundations are predominantly interested in the process of long-term social engineering. Notably among such foundations are the Rockefeller Foundation, Carnegie Corporation, Ford Foundation, Open Society Institute, and the Bill & Melinda Gates Foundation, among many others."

Andrew Gavin Marshall

"The Bill and Melinda Gates Foundation created the GAVI alliance to push vaccinations on the poorest parts of the developing world in the name of "saving lives" and stopping disease.
... In April 2012, the Indian medical press reported that some 47,500 children had been paralyzed as a direct result of the polio vaccination campaign that had swept through their populous country. India's National Polio Surveillance Project found that a sharp rise in the cases of non-polio paralysis correlated with areas where doses of oral polio vaccine were also increased. Worse, children afflicted with polio vaccine-derived non-polio paralysis were at more than twice the risk of dying than those

with wild polio infection, according to Indian officials.
... The Bill and Melinda Gates Foundation and the UN's World Health Organization knew that oral polio vaccines caused paralysis - but they thought the trade off was worth it.
... After years of controversy in the United States, the use of oral polio vaccine (OPV) was discontinued in 2000 due to its proven link with vaccine-derived poliovirus (VDPV), and in the UK circa 2004.
The use of an injected and inactivated polio vaccine (IPV) replaced its usage in the Western world, while oral polio vaccine continues to be used in the developing world."

Aaron Dykes, Truthsteam Media, 2013

"'Think tanks' manufacture debate. That's what they do: Their aim is to create the illusion of controversy, even when the facts are indisputable... What's more, the louder you are, the more outrageous your claim, the less civil your discourse, the farther you stand from common ground, the more welcome you will be as a guest and a source. It is not necessary to be right; to make the sale, it is only necessary to get attention."

Martin Kaplan in the book "What Orwell Didn't Know: Propaganda and the New Face of American Politics"

POPULATION CONTROL

"The Rockefeller Foundation, working with John D. Rockefeller III's Population Council, the World Bank, the UN Development Program and the Ford Foundation, and others had been working with the World Health Organization (WHO) for 20 years to develop an anti-fertility vaccine using tetanus as well as with other vaccines.
... In the early 1990's, the World Health Organization (WHO) oversaw massive vaccination campaigns against tetanus in Nicaragua, Mexico and the Philippines. Comite Pro Vida de Mexico, a Roman Catholic lay organization, became suspicious of the motives behind the WHO program. When they tested numerous vials of the vaccine they found that they contained Human Chorionic Gonadotrophin, or HCG... When HCG is combined with a tetanus toxoid carrier, it stimulated the formation of antibodies against HCG, rendering a woman incapable of maintaining a pregnancy, causing infertility"

F. William Engdahl

"Depopulation should be the highest priority of foreign policy towards the Third World."

Henry Kissinger

"The World Health Organization [WHO]/ United Nations International Children's Emergency Fund [UNICEF] vaccination campaign in Africa is not about eradicating neonatal tetanus, but is a well-coordinated, forceful, population control, mass sterilization exercise using a proven fertility regulating vaccine."

obstetrician/gynecologist Dr. Wahome Ngare, Kenyan Catholic Doctors' Association president, published a letter in the Kenyan press, November 4, 2014

The New York Times

<u>CORPORATE MEDIA</u>

"There is no such thing, at this date of the world's history, in America, as an independent press. You know it and I know it. There is not one of you who dares to write your honest opinions, and if you did, you know beforehand that it would never appear in print. I am paid weekly for keeping my honest opinion out of the paper I am connected with. Others of you are paid similar salaries for similar things, and any of you who would be so foolish as to write honest opinions would be out on the streets looking for another job. If I allowed my honest opinions to appear in one issue of my paper, before twenty-four hours my occupation would be gone.
The business of the journalists is to destroy the truth, to lie outright, to pervert, to vilify, to fawn at the feet of mammon, and to sell his country and his race for his daily bread. You know it and I know it, and what folly is this toasting an independent press?

We are the tools and vassals of rich men behind the scenes. We are the jumping jacks, they pull the strings and we dance. Our talents, our possibilities and our lives are all the property of other men. We are intellectual prostitutes."

John Swinton, preeminent New York journalist, at a press banquet,1880

"The American media does not serve the truth. It serves the government and the interest groups that empower the government. The function of the "mainstream media" is to sell products and to brainwash the audience for the government and interest groups."

Paul Craig Roberts

"Google is destroying the most glorious gift humanity was granted in the last 300 years [the internet]. Google is illuminati. The future under Google is a fascist dystopia, their way or the highway, no room for dissidents, no room for free speech. Google is a boot stomping on your face for eternity.
Google is the deep state. Forget about conventional wars, forget about spies, forget about intelligence agencies, forget about all of that. It's all about the internet and Google running the internet. They decide how you feel, what you think, what information you can and can't look at, and ultimately who does and doesn't have a voice."

David Bowie's final message written weeks before he died, 2015

"We'll know our disinformation program is complete when everything the American public believes is false."

CIA Director William Casey (1981-1987)

"The New York Times is the house organ of the Establishment. It is committed, both editorially and in its presentation of the news, to the interests of an Establishment: continuity, security and legitimacy. Therefore they generally support business and finance, the American version of empire, the government and the president, until, and unless, some excess is so egregious that it poses a threat to continuity, security or legitimacy."

Larry Beinhart

EMPIRE OF CHAOS

"U.S. military forces were directly responsible for about 10 to 15 million deaths during the Korean and Vietnam Wars and the two Iraq Wars.
... The United States was also responsible for 14 million deaths in Afghanistan, Angola, Democratic Republic of the Congo, East Timor, Guatemala, Indonesia, Pakistan and Sudan.
... The United States most likely has been responsible since WWII for the deaths of between 20 and 30 million people in wars and conflicts scattered over the world."

James A. Lucas

"The objective of U.S. world domination is not just power for its own sake but power to insure plutocratic control of the planet, power to privatize and deregulate the economies of every nation in the world, to hoist upon the backs of peoples everywhere - including the people of North America - the blessings of an untrammeled 'free market' corporate capitalism. The struggle is between those who belleve that the land, labor, capital, technology, and markets of the world should be dedicated to maximizing capital accumulation for the few, and those who believe that these things should be used for the communal benefit and socio-economic development of the many."

Michael Parenti

"It took some time before I fully realized that the United States sees little need for diplomacy. Power is enough. Only the weak rely on diplomacy. The Roman Empire had no need for diplomacy. Nor does the United States."

Boutros Boutros-Ghali, Secretary-General of the United Nations from January 1992 to December 1996

AXIS OF EVIL
United States, United Kingdom (UK) and Israel
(pius Saudi Arabia, France, Canada, Australia)

"The USA and its partners the UK and Israel have become the new Axis of Evil, a new evil empire."

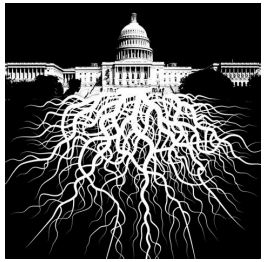

Preston James and Mike Harris, 2015

"If we are honest about who is actually murdering and abusing people, it is the US, Israel, and the UK. There's your "axis of evil."

Paul Craig Roberts, 2008

"We are directly responsible for tens-of-thousands of dead people, wounded people, and millions of displaced people. The underlying reason is that we in the UK are hand-in-glove with the axis of evil, which is Israel, Saudi Arabia and the USA."

UK university professor Rodney Shakespeare, 2016

DEEP STATE

"The term 'Deep State' describes a system composed of high-level elements within the intelligence services, military, security, judiciary and organized crime.
... It is a hybrid association of elements of government and parts of top-level finance and industry that is effectively able to govern the United States without reference to the consent of the governed as expressed through the formal political process."

former congressional staff member Mike Lofgren

"The "deep state" refers to a parallel secret government, organized by the intelligence and security apparatus, financed by drugs, and engaging in illicit violence, to protect the status and interests of the military against threats from intellectuals, religious groups, and occasionally the constitutional government.
... The "deep state" refers to the wider interface in America between the public, the constitutionally established state, and the deep forces behind it of wealth, power, and violence outside the government. You might call it the back door of the Public state, giving access to dark forces outside the law."

Peter Dale Scott

"The "deep state" consists of individuals across all elements within and external to the government, who in the aggregate are able to leverage government capabilities while violating, with impunity, all Constitutional checks and balances. Related to this is the matter of funding and reach. From New York banks to Texas energy to global drugs, there is a criminal network that is above the law and above the state."

Daniel Sheehan

NEW WORLD ORDER

"There is a transnational ruling class, a "Superclass", that agrees on establishing a world government. The middle class is targeted for elimination, because most of the world has no middle class, and to fully integrate and internationalize a middle class, would require industrialization and development in Africa, and certain places in Asia and Latin America. The goal of the Superclass is not to lose their wealth and power to a transnational middle class, but rather to extinguish the notion of a middle class, and transnationalize a lower, uneducated, labor oriented class, through which they will secure ultimate wealth and power."

Andrew Gavin Marshall, 'The Global Economic Crisis: The Great Depression of the XXI Century'

"T*he technetronic era involves the gradual appearance of a more controlled society. Such a society would be dominated by an elite, unrestrained by traditional values. Soon it will be possible to assert almost continuous surveillance over every citizen and maintain up-to-date complete files containing even the most personal information about the citizen. These files will be subject to instantaneous retrieval by the authorities."*

Zbigniew Brzezinski in his 1970 book "Between Two Ages: America's Role in the Technetronic Era"

"If the New World Order types had some kindness, some humanity, some morality, perhaps One World Government is what we need. But mainly these are nasty people with a lust for money and a ruthless disregard for human suffering. Sadly this is all made possible by a mainstream media that is owned and controlled by these very forces."

Chris Pratt from his movie "Deception"

"Whatever the price of the Chinese Revolution, it has obviously succeeded not only in producing more efficient and dedicated administration, but also in fostering high morale and community of purpose. The social experiment in China under Chairman Mao's leadership is one of the most important and successful in human history."

David Rockefeller, New York Times August 10, 1973

"The powers of financial capitalism had a far-reaching aim - nothing less than to create a world system of financial control in private hands able to dominate the political system of each country and the economy of the world as a whole. This system was to be controlled in a feudalist fashion by the central banks of the world acting in concert, by secret agreements arrived at in frequent private meetings and conferences. The apex of the system was to be the Bank for International Settlements [BIS] in Basel, Switzerland, a private bank owned and controlled by the world's central banks which were themselves private corporations ... Each central bank sought to dominate its government by its ability to control Treasury loans, to manipulate foreign exchanges, to influence the level of economic activity in the country, and to influence cooperative politicians by subsequent economic rewards in the business world."

"More than fifty years ago the [J.P.] Morgan firm decided to infiltrate the Left-wing political movements in the United States. This was relatively easy to do, since these groups were starved for funds and eager for a voice to reach the people. Wall Street supplied both. The purpose was not to destroy ... or take over but was really threefold: (1) to keep informed about the thinking of Left-wing or liberal groups; (2) to provide them with a mouthpiece so that they could "blow off steam," and (3) to have a final veto on their publicity and possibly on their actions, if they ever went "radical".

"There is a transnational ruling class, a "Superclass", that agrees on establishing a world government. The middle class is targeted for elimination, because most of the world has no middle class, and to fully integrate and internationalize a middle class, would require industrialization and development in Africa, and certain places in Asia and Latin America. The goal of the Superclass is not to lose their wealth and power to a transnational middle class, but rather to extinguish the notion of a middle class, and transnationalize a lower, uneducated, labor oriented class, through which they will secure ultimate wealth and power.

The global economic crisis serves these ends, as whatever remaining wealth the middle class holds is in the process of being eliminated, and as the crisis progresses, the middle classes of the world will suffer, while a great percentage of lower classes of the world, poverty-stricken even prior to the crisis, will suffer the greatest, most probably leading to a massive reduction in population levels, particularly in the "underdeveloped" or "Third World" states."

"There is nothing puzzling ... about America's gratuitously aggressive foreign policy... What an aggressive foreign policy accomplishes by slow degrees, a state of war accomplishes in a trice. Overnight [war] kills reform, overnight it transforms insurgents into traitors and the Republic into an imperiled realm. Overnight it strangles free politics, distracts and overawes the citizenry. Overnight it blasts public hope."

"Americans are too broadly underinformed to digest nuggets of information that seem to contradict what they know of the world... Instead, news channels prefer to feed Americans a constant stream of simplified information, all of which fits what they already know. "We have about 50% of the world's wealth but only 6.3% of its population.... Our real task in the coming period is to devise a pattern of relationships which will permit us to maintain this position of disparity without positive detriment to our national security. To do so, we will have to dispense with all sentimentality and daydreaming, and our attention will have to be concentrated everywhere on our immediate national objectives. We need not deceive ourselves that we can afford today the luxury of altruism and world benefaction.... We should cease to talk about vague and unreal objectives such as human rights, the raising of the living standards, and democratization. The day is not far off when we are going to have to deal in straight power concepts. The less we are then hampered by idealistic slogans, the better."

"To oppose the policies of a government does not mean you are against the country or the people that the government supposedly represents. Such opposition should be called what it really is: democracy, or democratic dissent, or having a critical perspective about what your leaders are doing. Either we have the right to democratic dissent and criticism of these policies or we all lie down and let the leader, the Fuhrer, do what is best, while we follow uncritically, and obey whatever he commands. That's just what the Germans did with Hitler, and look where it got them."
